please do not report the images to the  
Image Problem Mailbox.**

**Abstract**

**Illumination arrangement**

5        The invention describes an illumination arrangement having an optical waveguide (11; 31; 43), a light source (12; 32, 33; 41), which couples emitted light into the optical waveguide, and having a mount (10; 20, 21; 22, 23; 30, 35, 38; 40, 42), which is 10 formed as a shell from a plurality of shell elements which are connected to one another and enclose the optical waveguide at least in regions in which the light is intended to be deflected. A method for producing an illumination arrangement is specified.
